BARDOS ROMÁNTICA 2017

A high altitude vineyard crianza: fresh, friendly and honest.

ORIGIN

In 2004 when we began our exploration in the search for the wine regions with most potential in Spain, we discovered Páramo de Corcos, a difficult but privileged area for viticulture, at more than 900 meters above sea level in the heart of the Ribera del Duero. There, we took up the challenge of creating honest wines on the land from which they came, seeking the essence of high-altitude vineyards full of freshness and elegance.

At Bodegas Bardos we elaborate wines in an artisan fashion, aiming to have them reflect the Castilian landscape and climate of a place where only the bravest dare to work the land in the most extreme conditions, where the cold shrinks the bones, the wind cuts the flesh and the sun burns the skin. A place only suitable for the authentic “bards” of wine, our wine growers.

TECHNICAL INFORMATION

Varieties: Tinta del País.

Vineyard: Old low-yield vineyards, selected in the Páramo de Corcos and surroundings, in the towns of Moradillo de Roa, Fuentemolinos and Castrillo de la Vega. Sandy loam soils with pebbles on the surface and layers of clay deep down.

Harvest: Manual harvest of selected grapes during the end of September and the beginning of October.

Winemaking: Fermentation and maceration during 3 to 4 weeks in 15,000 kg vats at 28°C. Malolactic fermentation in French oak barrels.

Aging: 14 months in second hand French oak barrels.

Alcohol Content: 14% Vol.

TASTING NOTES

Colour: Cherry red tones, very alive. Great depth of color.

Nose: Very fresh nose, which perfectly conveys the character of the highland vineyards of the Páramo de Corcos. Enormous complexity, with spicy notes from the barrel and background fruit.

Palate: Very pleasant mouth, with an enveloping, velvety tannin, very well matured. Acidity integrates with the density and sweetness creating a perfect balance. Again the finish denotes highly complex fresh fruit and spices.

VINTAGE

A year marked by challenging weather conditions. The March temperatures fluctuated enormously which together with the heavy frost at the end of April and hot and dry Summer resulted in the earliest harvest in many years. It was classified as short but of great quality.
